

Aactive Dart League (ADL) Player Ranking Information for 2025-26

The ADL Player Rankings established in 2010 is used for player & team placement for our leagues' start up.

If your name has a * / ** or is not on the current ADL Player Rankings, call Paul at 204-979-3278 to get your PPD for the upcoming league season.

Your Player Ranking determines which Winnipeg Vegas League(s) you can play in.

Other leagues & tournaments may use these rankings for team and/or player placement.

Divisions will be used in our leagues based upon # of teams as required.

ADL Leagues will follow the same criteria the NDA uses to place and rank teams for any tournaments. Teams will register for their night of play and be placed in the appropriate league / division (based on Player Rank & Team PPD).

ADL Player Ranking Levels: *adjusted in 2022*

0 = 30.00 + ppd **1** = 26.00 - 29.99 ppd **2** = 22.00 - 25.99 ppd **3** = 18.00 - 21.99 ppd **4** = 17.99 - under ppd

Once a player moves up (from a 4 to a 3, 3 to a 2, 2 to a 1 or 0, they will stay at that ranking level for a minimum of three years as a regular player regardless if their PPD average for the rankings is lower the next year.

- Not playing for any length of time as a regular player in the Fall / Winter leagues or just sparing does not count towards the 3 year minimum. The last known rank and PPD on file will be compared & possibly used.
- Players may be moved down if after 3 seasons as a regular player their Player Ranking PPD falls below the criteria each of those (all) 3 seasons.
- If you have played for another operator the previous year, we will need to see those stats as well. The higher stats will then be used (based on how the Player Rankings are determined).

How the ADL Player Rankings are determined:

A comparison is done from the previous dart year and averaged out between:

overall regular season league play vs overall league playoff vs a Cricket-to-PPD conversion from all leagues & playoffs

The highest of these 3 totals is used to determine your upcoming Fall season starting PPD.

Regular league players will use the Player Rank PPD listed.

Players with * (under 24 overall games) or ** (24-48 overall games) will have their ppd compared to previous rankings.

Spring / Summer League regular season, playoff stats & PPD/Cricket conversion will be looked at for those with minimal games played or new players. The higher will then be used.

Players with PPD/MPR stats not from an Aactive Dart League will have their player rank determined by league vs playoff vs cricket conversion as required.

New players with no averages on file will be assigned a PPD average & placed at the discretion of the Aactive Dart League.

All decisions by the Aactive Dart League are Final.

2025-26 AACTIVE DART LEAGUE PLAYER RANKINGS - *as of June 26, 2025*

Summer Stats will be used for New Players or Spares with minimum games played

Players not listed may have Stats on File.

Less than 24 () or 48 (**) total games will have rank compared to last season played as a Regular Player*

List subject to change due to changes, additions or omissions.

All decisions by the Aactive Dart League are Final
